March 2024

National Careers Week (NCW) is a one-week celebration of careers guidance and free resources in education across the UK. The aim is to provide a focus for careers guidance activity at an important stage in the academic calendar to help support young people develop awareness and excitement about their future pathways.

The National Careers Website (<https://nationalcareersweek.com>) provides quality free CEIAG resources that link education with the world of employment to ensure students get an important insight to the future of work and further learning. Working with partners to provide bespoke resources means you get better-informed students which results in better decision-making.
