

Craft Apprenticeship Scheme

The power to develop.

Starting Salary £14,222 per annum | Midlands, South West, Wales

Western Power Distribution owns and operates the electricity distribution system in the Midlands, the South West of England and South Wales. Our 6,500 people are the power behind a network that includes underground cables, overhead lines and substations operating at voltages from 132,000 volts down to 230 volts and feeds over 7.8 million customers.

Our Craftspeople work at the sharp end of our business, keeping the lights on for our customers. It's an exciting job with lots to learn and real career potential.

If you enjoy working as part of a team, being outdoors, want to gain valuable qualifications and earn a competitive salary as you learn, you can do it all here with the UK's leading electricity distribution business.
