

Good Morning

We are delighted to announce that we have now launched the Three Counties Virtual Careers Fair 2022 that is hosted by the Three Counties Agricultural Society.

Many of the exhibiting colleges, universities and organisations are local to the three counties of Gloucestershire, Herefordshire and Worcestershire. As well as traditional academic courses, our exhibitors also offer training and apprenticeships. We have also included details of our Three Counties bursary in memory of Joe Henson, which exists to help prospective students wishing to study agriculture or related subjects.

Here is the link to the Virtual Careers Fair for you to share:

<https://www.threecountiesagriculturalsociety.co.uk/>

The site will be available for the next three months and can be accessed at a time that is convenient to the user.
