

## **Careers and Aylestone School Teachers**

All teachers are encouraged to promote careers at the School, as well as highering aspirations of our students.

Posters are placed in each curriculum area to show students all the different career pathways that can be taken if they choose to study this subject at Further Educational or Higher Educational level.

Our Careers Lead has regular meetings with staff to update them on career activities and updated Labour Market Information.

The Careers Policy stresses the importance of careers and the whole school approach to ensure all are 'on board' with the promotion of it.

All teachers are encouraged to share any career related speakers or workshops that they know that would be interested in visiting the school with either Mr Moores (Careers Lead) or Mrs Davies (Careers Advisor) who will happily arrange an appointment for them.

Any teachers that have any questions or queries about the career programme please speak to Mr Moores the Careers Lead.
