February 2022

February was the month that included Apprenticeship Week. We were able to organise visits from the two main apprenticeship providers in Hereford ; Riverside Training and Hereford & Worcester Group Training.

On Monday 7th February Riverside Training came in to speak to our Year 7 students to give them chance to find out what an Apprenticeship was and to ask any questions they had.

All students watched the National Apprenticeship week 2022 video in form time.

Herefords & Worcester Group Training came in on Wednesday 9th February to speak to all the Year 11 students to give them more information on what type of apprenticeships they offered. They then returned on Thursday 10th February to have 1-1 conversations with those students that had shown an interest in applying.

On Friday 11th February Year 9 students had a 'Where Does Confidence Come From' assembly from Aim. This explored why we either have or don't have confidence in certain areas and how we can build it.

Those Year 11 students that had shown an interest in apprenticeships were given an extra appointment with me this month to look at available apprenticeships and how best to apply.
